

Trixi® compact Oro Double Mix 005

TRIXI® COMPACT ORO DOUBLE – EASY GOING.

Very early-flowering and compact-growing. Dense, closed habit, top shelf life. When potted in early to mid-March, fully marketable from the end of April. No pruning required, no inhibitor should be used. Trixi® compact Oro Double keep their closed, dense shape for up to three weeks and offer unrestricted saleability during this time.

For earlier production, adjust the temperature and light to promote sufficient vegetative growth.
